

Bear Slider Card Measurements

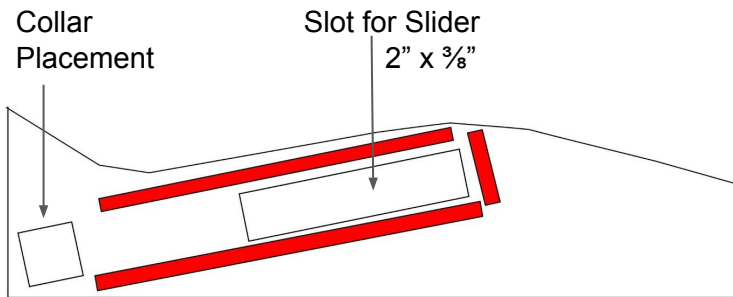

The finished card size will be 5" x 7" which include the pull tab, making the cardbase 6 ½" x 5".

You will need a scrap of Acetate to attach the bear to the slider tab ½" x 3" that can be trimmed as needed.

The height of the hillside is to personal choice. I will give you my approx. measurements, refer to diagrams.

Please watch video tutorial with instructions on:

<https://youtu.be/AzGsDJkLhsl>

This is the middle hillside piece for the slider pull tab, it should be 6 ½" in length and about 1/8" shorter in width. The red strips are for placement of foam tape.

6 ½" x 5" Card Front

Hillsides 4" x 6" cut on horizontal to make 2 pieces.
